GENERAL AND REVENUE SECRETARIAT.

Serial Nos. Seven.

Part B for Answer

SUBJECT.

Proposals for developing the Seri-Cultural Industry in the State.

WD 01965—GPB—15,000—7-7-34

2715.

Serial No.

3 Letter no. D4-1318.27 dated 19th January 1934 from the Dir. It stating that there are at present 16 aided gravings, that it is considered urgently necessary to start 4 more gravings during the current year at a cost of Rs. 2000/- for the purchase of appliances &c, that appliances required for one gravings are in stock, and requesting sanction to incur an expenditure of Rs. 1500 for purchase of 3 more sets of appliances, the cost being met by reappropriation, and also to make an actual provision of Rs. 2000/- in the next year's budget for payment of bonus.

The proposal of the Dir. to start 4 aided gravings during the current year is for orders. Each gravings is expected to cost Rs. 500/- and the cost during the current year is proposed to be met by re-appropriation.

2 The Director wants the provision for payment of bonus to aided gravings to be raised by Rs. 2000/. The current year's provision under "Aided gravings — Instruments and Appliances and Bonus is Rs. 5000/- H.S. Secy has to be consulted.

to increase the Supply & decrease the Lapsing to Seri cultivation Seri. 22-27-5 — 5

Ref. 3 & 1.34. 3) Last year also, the Director submitted proposals to start 3 more aided gravings. Govt considered it not necessary

4 As the demand for silk is slack and 2/2
our Budget position is unsatisfactory.
this is scarcely the time in which
a proposal involving additional Expr
is financially acceptable. which is now proposed is
~~to incur recurring~~ an initial Expr of 2000 Rs
and a provision of Rs 2000 ~~for~~ in the Budget
of next year onwards. The proposal to
increase the number of aided drainages
involving extra cost to Govt will have to
be ~~deferred~~ deferred on these grounds.

which for convenience maybe treated together		
They are		
1. Increase the provision for Sericulture from Rs 5000 to Rs 7000 involving	Rs 2000	00
2. Increase of grant for the encouragement of the formation of Mulberry Tope from Rs 500 to Rs 2000 involving	1500	00
3. Anew provision of Rs 1100 for the supply of seedlings and the encouragement of Planting of seedlings in Ryot Fields	1100	
Total	4600 Rs.	

13) There can be no two opinions about the desirability of adopting the various measures suggested especially as it is the policy of Govt to support the Sericultural industry

14) The total revenue expenditure of the Seri Dept is about Rs 1 lakh and even in the present condition of finances, the Sericulture industry requires that the activities should be maintained in all directions. In this view it would be desirable that the sum of Rs 4600 asked for could not be given

15) The Director is of opinion that he can probably find some savings in the Forests Dept but this will take some time for enquiries

Serial No.

cannot be taken into consideration in sanctioning new expenditure.

16) If the total grant for the department cannot be increased the Director will have to be asked to restrict the expenditure on all heads under his control and provide for the urgent needs by drastically cutting down the less urgent or unimportant ones if any.

Serial No.

Sericultural Budget. + sends up proposal prospecting certain resorts of expenditure in the D.F.C. Depts. which will have the effect of saving Rs 5100/-

Submitted for orders.

30/6

1. The Dir proposes to find the funds for these 3 proposals, involving a total cost of Rs 5100/-, by abolishing the post of one of the Supdts of Mysore (Mr H. V. Visvesvaraya) & making consequential changes re work and location of offices.

2. The Dir states that Mr. Visvesvaraya may be returned to the P.W.D, that the separate offices of the two remaining Supdts may be abolished & merged in the office of the Dir, and that the headquarters of both the Supdts, may be declared to be Bangalore.

3. It is open to doubt whether this centralisation at Bangalore is likely to be in the best interests of the public, who would need advice & suggestions of the Dept. The Dir states that he would make arrangements to ensure that the work will not suffer by reason of these changes.

4. The proposals are for orders —

D. Sec'y)

MG

30/6/34

5. In addition to these agricultural [illegible] works in the Industries dept, there Supdts are also

entirely with the work of Boiler & Factory inspections. Even as their work is now very heavy during these days of depression.

36 I agree with the Director that it will lead to better work if they are all stationed at the D.I. & C. instead of being treated as separate offices. Two officers can also manage the work with a well regulated programme. There will maybe a slight addition to T.A. charges but in addition the pay of one officer at Chirakkal, there will be considerable savings under staff, which can perhaps be utilised for the appointment of a marketing officer proposals in regard to which are being separately submitted.

37 The present proposals of the Director may be agreed.

29-9-34

Final Note by the First Member of Council. 14

Subject:—

Proposal to reduce the number of Superintendents of Industries by one and revert Mr. H.V. Visvesvaraya, M.E., to the Public Works Department and to utilise the savings for sanctioning some urgent schemes for development of Sericulture.

49 The Director of Industries and Commerce has submitted certain proposals for assisting the sericultural industry in the State, with a view to enable Sericulturists to produce cocoons at a lower cost than they are able to do at present. Among these proposals are (1) increasing the number of aided grainages for the supply of disease free seed, (2) supply of mulberry seedlings and (3) the encouragement by means of grants to the raising of mulberry topes.

50 As there was no provision for these necessary items of development in the budget and as it appeared possible to make some savings by reducing some staff in the Industries and Commerce Department which was proving superfluous, the Director was informed that the Government would have no objection to sanction his proposals provided corresponding reductions in the budget of the Industries and Commerce Department were effected.

51 The Director has now proposed that one of the three posts of Superintendent of Industries may be abolished and that Mr. H.V. Visvesvaraya, who had been lent by the Public Works Department may be reverted to that Department. I am of opinion that the proposal may be approved as the savings will enable us to sanction some of the several urgent schemes for sericultural development.

52 The Dewan and the Second Member of Council have agreed to the proposal and I solicit His Highness' gracious sanction thereto.

Bangalore,
28th September 1934.

In reply please refer to
No. D4-1318/27-28.
Encl, Three.

OFFICE OF THE DIRECTOR,

Dated, Bangalore, 18th January, 1934.

FROM

A. V. RAMANATHAN, Esq., B.A.,
~~N. RAMA RAO, Esq., B.A., B.L.,~~
Director of Industries and Commerce in Mysore,
Bangalore, (India.)

To

S. Abdul Wajid, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Subject:- Aided Grainages.

I have the honour to state that one of the most important problems the Sericultural Department has to deal with is the supply of good silk worms seed to the sericulturists. The Government grainages and the aided grainages are preparing and supplying disease free layings to the sericulturists. In 1932-33 these institutions were able to supply 34,58,000 layings as against 24,52,000 layings in the year 1930-31. The total silk worm seed requirements of the State per year comes to about 3½ crores of disease free layings. The present supply of disease free layings from the above institutions meets only a small portion of the demand.

With a view to minimise the risks of loss of crops through bad seed, it is necessary to gradually increase the supply of disease free layings. As the Government grainages will have to devote attention to increase the supply of cross breed layings, the aided grainages will have to be utilised for increasing the supply of Mysore layings.

There are at present 16 aided grainages of which 15 were active last year and prepared 16,42,565 disease free layings. The total minimum number of aided grainages that would be necessary to arrange a proper supply of seed would be about 50%. We have to gradually increase the number of aided grainages year by year.

The Executive Committee of the Mysore Silk Association at its meeting held on 18-9-1933 recorded a resolution requesting the opening of more aided grainages. A copy of the resolution is herewith submitted for the information of Government.

The Superintendent of Sericulture proposes to start during the current year 4 aided grainages. A copy of the letter received from the Superintendent of Sericulture submitting proposals on the subject is sent enclosed. A sum of Rs.2,000/- would be necessary for the purchase of appliances to be supplied to these 4 aided grainages at the rate of Rs.500/- for each grainage. Appliances required for one grainage are in stock. The balance of Rs.1,500/- is proposed to be met by reappropriation from the following heads in the current year's budget of the Sericultural Department.

Rs.500/- .. "IV Farms - Grainage Section - Appliances & Chemicals
Rs.1,000/-.. "III Organisation & Assistance (c) Reeling Classes

There would be sufficient savings under these heads. The savings under the latter head is due to the fact that the demand for Domestic Basins is now slack owing to the depression in the Silk trade. Half the cost of the appliances supplied to these aided grainages is recoverable after a year after they begin to work.

The 4 new aided grainages proposed to be started this year will begin to earn bonus from next year. A provision of Rs.2000/ will be necessary in the budget of the Sericultural Department from next year for paying bonus to the above 4 aided grainages, at the rate of Rs.5/- per thousand layings for the first two years and half this rate during the next three years, as per existing orders. (D. 6900-1 Seri. 25.30.23/25-26.30).

I request you to kindly obtain sanction of Government to start 4 new aided grainages during the current year, to meet the cost of the appliances amounting to Rs.1500/- from the heads pointed out above by reappropriation and to increase the provision for bonus to aided grainages in the next year's budget by Rs.2,000/-.

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR.

ks)3.

Extract of resolution No.13 recorded at the meeting of the Executive Committee of the Mysore Silk Association held on 18th September 1933.

---

x x x

13. Subject proposed by Mr. Syed Allah Baksh: That Government be requested to open more aided grainages in the State and to allow such grainages which have worked satisfactily for at least two years, to prepare cross-breed layings and for this purpose an additional grant of Rs.10,000 may be made to the Department for appliances and Bonus etc.

The proposition was amended and passed as follows:-

"Resolved that Government be requested to open more aided grainages in the State and to assist two such grainages to equip themselves to prepare cross breed layings and for this purpose to sanction an additional grant of Rs.10,000 to the Department to meet the cost of the necessary appliances, bonus etc.

FROM

H. S. GOVINDA RAO, ESQ, B.A.,
Superintendent of Sericulture in Mysore,
MYSORE.

To

A.V.RAMANATHAN ESQ., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore.

SIR,

Subject:- Starting of four new Aided Grainages - Increasing preparation of cross breed layings in the Farms etc.

****

With reference to your memo No. D4-1318/27-28 d a t e d 14th/15th November 1933, on the above subject, I have the honour to state that the probable additional expenditure during the current year, for the supply of grainage appliances, payment of bonus etc., to the four aided grainages to be newly started, will be Rs 1,500/-.

The entire expenditure cannot be met by re-appropriation from the provision of Rs 2,500/- under Grainage Section, Appliances and Chemicals, since the same expenditure has to be in-

incurred in equipping the Government Grainages at Sidlaghatta and Mugur during the current year to enable them to prepare cross breed layings.

In the circumstances, I have the honour to state that the sum of Rs 1,500/- required for starting the new Aided Grainages may be conveniently re-appropriated from the following heads:-

Rs 500/- from the provision of Rs 2,500/- under IV Farms, Grainage Section - Appliances and Chemicals; and

Rs 1,000/- from the provision of Rs 2,000/- under III Organisation and Assistance, (c) Reeling Classes.

Necessary action has been taken to increase the production of cross breed layings in Channapatna and Mysore Farms.

I have the honour to be,

Sir,

Your most obedient Servant,

Superintendent.

OFFICE OF THE SUPDT. OF SERICULTURE IN MYSORE,
OLD EXHIBITION BUILDINGS,
Mysore, 19th October 193 3.

FROM

H. S. GOVINDA RAO, ESQ., B.A.,
Superintendent of Sericulture in Mysore,
MYSORE.

To

A. V. Ramanathan Esq., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore.

Subject and Reference :—

SIR, I have the honour to state that in these days of depression it is necessary to afford facilities to the Sericulturists to reduce the cost of production of cocoons so that they may not suffer very much even if the cocoon prices are low. The one great difficulty which the sericulturists experience is the want of a sufficient supply of examined seed. The Sericulturiests are getting their supply of Disease Free layings from Government Grainages, Aided Grainages and Sericultural Co-operative Societies. The supply of Disease Free layings from ~~the~~ the institutions under the control of the Sericultural Department which amounted to 24,52,000 layings in 1930-31 rose to 34,58,000 layings in 1932-33. The supply of layings has been far below the requirements of the Sericulturists and many of these had to purchase seed cocoons for their rearings. The seed cocoons made available by the seed rearers under the control of the Sericultural Department have been giving good results. But many sericulturiests cannot get these seed cocoons also a and have to depend upon seed ~~rearer~~ kudaos s who very often supply unsatisfactory seed cocoons so that the rearers suffer losses as their worms have to be thrown away after they have consumed the leaves and when the sericulturiests are expecting the worms to form cocoons. Such losses hit these sericulturiests very hard in these days of depression when the cocoon costs are very low.

In order to enable these sericulturists to get all their crops successfully, the first facility that has to be given to them is the

the

the supply of a large quantity of Disease Free layings by affording help to trained people to start aided Grainages.

The Aided Grainages so far started have been doing very useful work. Out of the total supply of 34,58,000 Disease Free layings during 1932-33, the aided grainages supplied 16,42,000 layings. The aided graineur has to obtain good seed cocoons, examine the seed under the supervision of the Officer of the Sericultural Department, has to secure orders for the layings, has to visit the rearing houses of the sericulturists who are rearing his seed at frequent intervals so that suitable instructions are issued to ~~him~~ them in time to enable all the crops being harvested successfully. The supply of 16,42,000 layings during 1932-33 from the aided grainages has been done at a cost of about Rs6000/- only to Government.

In order to increase the supply of Disease Free layings to Sericulturists, it is necessary to start more aided grainages in the sericultural parts of the State. There are a number of young men who have undergone the necessary training and who have done spade work in the Sericultural Areas.

It is necessary to utilise the services and the training of these young men by affording facilities to start aided grainages. Due to financial stringency, it has not been possible to start any new aided grainage during 1932-33. If the facilities are denied this yea also, the training received by the young men and the work already done by them in the Sericultural areas will not have been utilised to the best advantage. The Sericulturists in the interior parts have been asking for facilities to be given for starting aided grainages in their midst by well trained young men.

I beg to request that Government sanction may kindly be obtained to start four aided grainages during the current year in the several Sericultural parts of the State. The initial cost of starting these aided grainages would be the cost of appliances which have to be bought and lent to the aided graineurs. The aided grainages will pa half the cost of the appliances after a year's work provided the wor has been done satisfactorily and the graineur has gained enough confidence to continue the work. The cost of appliances to be sup

supplied

supplied to each aided grainage amounts to about Rs 500/- A sum of Rs 1,500/- only would be required during the current year to start 4 aided grainages, as one set of appliances reqovered back from an aided grainage closed last year is available. The expenditure of Rs 1,500/- can be met out of the provision of Rs 2,500/- under Grainage section appliances and chemicals in the current year's budget of the Sericultural Department.

As the aided grainages play a very important part in stabilising the silk Industry in Mysore, I request that early sanction of Government may kindly be obtained to start four new aided grainages during the current year.

I have the honour to be,
S i r,
Your most obedient servant,

Superintendent.

OFFICE OF THE DIRECTOR,

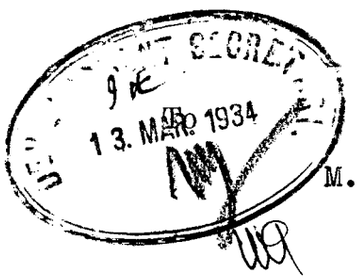
Dated, Bangalore, 12th March *193* 4.

FROM A. V. RAMANATHAN, Esq., B.A.,
~~N. RAMA RAO, Esq., B.A., B.L.,~~
Director of Industries and Commerce in Mysore,
Bangalore, (India.)



M. Venkataṇaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

Subject - Aided Grainages

With reference to your letter No. D. 4099/Seri. 51-33-4 of the 21st Febry. 1934 communicating to me the orders of Government that the question of the starting of four new aided grainages - this year will have to be deferred on financial grounds, I have the honor to state that it is absolutely necessary to start more aided grainages urgently in the interests of the Sericultural Industry as personally submitted to the Government. This is a very important and urgent item of work for increasing the output of - cross-breed and disease free seed, increasing the output of silk per laying and lowering the cost of production of silk. I request that Government may therefore very graciously reconsider the orders already passed and sanction these proposals.

As instructed by the Government at the meeting on the 9th March 1934, I shall submit proposals separately for effecting - economies in the Industries and Commerce Department under other items.

I have the honor to be,
Sir,
Your most obedient servant,

Director.

D. O. No. D4-266/33-34

OFFICE OF THE DIRECTOR,

Mr. A. V. Ramanathan, B.A., *Director.*

Bangalore, dated.....June 25th, 1934.....
Camp. Mysore,

OFFICE OF THE FIRST MEMBER OF COUNCIL 27 JUNE 1934 No. 11009

Dear Mr. Venkatanarasappa,

With reference to your D.O. letter No.D.5216/Seri. 51-33-8 dated 3rd May 1934, stating that the Government have no objection to sanction the marginally noted proposals relating to sericulture, subject to correspondin- reductions being made in the total budget of the Industries & Commerce - Department for the next year, I beg to state that the proposals are of an - urgent nature and may kindly be provided in the Sericultural budget.

Rs.2,000	for payment of bonus to aided grainages.
Rs.1,100/-	for supply of mulberry seedlings.
Rs.2,000/-	for encouragement for formation of mulberry topes.

I request that Government may effect the following reductions of expenditure in the Industries & Commerce Department:-

Abolition of one post of Superintendent of Industries, returning Mr. H.V. Visvesvarayya to the Public Works Department, from which he has been lent. The remaining two Superintendents of Industries will do for the Department now. Their separate offices may be abolished and merged in my office. The Headquarters of both the Superintendents may be declared to be - Bangalore. They will be attached to my office. I shall arrange their programmes suitably and ensure that the inspection of - Factories, etc., to be done by them is properly carried out.

vide G.O. No.D.36018-46 Ik.119-34-1 dated 26th Nov. 1934 for final orders on this point

By

By abolishing one Superintendent's post and returning Mr. Visveswarayya to the Public Works Department, the necessary sum of Rs.5,100/- will be saved.

Yours sincerely,

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.
